Summary

Computer Engineering graduate with a strong background in front-end development using React.js and Vue.js. Skilled in translating UI/UX wireframes into high-quality code. Certified in Master Microservices. Eager to apply front-end expertise and creativity in a challenging role.

Education

Bachelor of Technology in Computer Engineering

Ganpat University   **June 2019-Mar 2023**

Skills

- **Programming Languages:** Core Java, JavaScript
- **Frameworks:** Spring Boot, Vue.js, React.js, Bootstrap
- **Design:** UI & UX Design, CSS

Experience

August Infotech

Front-end Developer Internship (Jan 2023-Jun 2023)

- Developed user-friendly, scalable web applications using ReactJS and Redux, enhancing cross-platform compatibility.
- Collaborated with design teams in translating UI/UX wireframes into high-quality code, aligning with front-end development standards.

Project

Course API (https://github.com/MurtAz2001/course-api*) (***Oct 2023)**

- Implemented a comprehensive Course API using the Spring Boot framework and microservices architecture, providing a scalable and efficient solution for managing and retrieving course-related information.
- Designed a data model to represent course information, including attributes such as course name, institution, start date, end date, and any other relevant details.

Weather Info App (https://drive.google.com/drive/folders/1-unY0Jgixycyrnz9j-fI9h0MM6SQVyin*) (***Oct 2023)**

- Developed a dynamic weather app using React.js and Vue.js, seamlessly importing real-time data from APIs for an interactive and responsive user experience.
- Implemented a clean and intuitive user interface, enabling users to easily navigate and access weather information.

YouTube Clone (https://github.com/MurtAz2001/ReactJs_youtubeClone**) (***Aug 2023)**

- Explored a dynamic YouTube clone built with React JS, seamlessly importing content through APIs.
- Ensured the YouTube clone is responsive, making it accessible and usable on various devices, including desktops, tablets, and smartphones.

Restaurant Management App (https://github.com/MurtAz2001/Restaurant-app*) (***Nov 2023)**

- Seamlessly integrated Restaurant Management App with APIs, streamlining data import for efficient and user-friendly restaurant operation.
- Emphasized role in designing an intuitive and user-friendly interface for restaurant staff and management.

Certifications

- MASTER MICROSERVICES WITH SPRING BOOT AND SPRINGCLOUD. (**Oct 2023** - **Oct 2023, Issued by Udemy)**
- Java Programming Masterclass Updated To Java 17. (**Aug 2023** - **Oct 2023, Issued by Udemy)**
